

FORCES

2021

HISTORY OF INNOVATION

1947

Salomon family wood saws and ski edges' workshop opens in downtown Annecy.

1957

The first Salomon's binding, 'lelift' is created replacing the traditional leather binding straps.

1966

Salomon invents the first binding with self-release heel piece. Salomon bindings are present for the first time at an Olympic Games, Portillo, Chile.

2005

AMER Sports acquires Salomon. Salomon has now sold over 20 million pairs of XCbindings since their launch 25years earlier.

2001

Raid Race, the first XA shoe arrives on the market. Launch of winter apparel together with the new Softshell technology.

1997

Boards, bindings and boots; Salomon launches a complete snowboard offer.

2011

Salomon launches Quest Boots and new dimension is given to 'fit'. The boot has unparalleled downhill attributes and incorporates a 'walk' function.

2013

Emilie Forsberg is the Skyrunning World Champion. Salomon launches Custom Fit3D, the next generation liner for the best instant fit. Salomon changes its logo.

2015

Salomon launches the Backcountry range, developed in collaboration with athletes to move freely in the mountains. Salomon is back in Mountaineering with XALP range.

1972

Salomon becomes the #1 binding manufacturer in the world selling for the first time more than 1 million pairs of bindings in that year alone.

1979

Salomon alpine boots hit the market and are an immediate success.

1980

For the 1979-1980 winter season, the Salomon Nordic System boot and binding ensemble is launched in France and Sweden.

1992

Salomon ventures into summer sports with the launch of hiking shoes. Salomon skis make their first Olympic Games appearance in Albertville.

1990

Salomon has now sold 10 million pairs of alpine boots and over 5 million pairs of XC boots since their arrival on the market 10 years earlier. Salomon launches its first ski, the S9000.

2008

Custom Fit Technology. Kilian Jornet wins the UTMB and sets up a new record (20h for 170km).

2017

Me:sh Salomon allows you to co-create your running shoe in 4 easy steps to fit your personal needs and desires: Feet measurements Running from analysis. Your playground, type & training frequency. Your personal preferences

2018

Salomon launches the S/LAB Shift Ski binding.

Kilian Jornet is named National Geographic Adventurer of the Year.

Salomon Athletes win 18 total medals at the Winter Olympics in Pyeongchang, South Korea.

2019

Salomon unveils the WMN campaign, aiming to empower women outdoors.

Courtney DAUWALTER wins UTMB on her first participation.

SALOMON FORCES RANGE

Soldiers and professionals need dedicated equipment to operate in hostile environments, beginning with footwear. In addition to year-round comfort, outstanding traction in changing terrain, footwear for armed forces and law enforcement units must be stable, durable enough for intense conditions, and provide complete weather protection. Salomon's FORCES Footwear 2021 program includes specific versions of some of our highest performance models, dedicated to the needs of Special Operations Forces professionals in the field.

XA FORCES JUNGLE NEW!

ASSAULT

This lightweight, tactical boot is designed for pushing hard in tough conditions like the jungle. Based on Salomon's iconic racing XA PRO 3D, this Special Forces boot is ultra-durable and remains stable in uneven terrain. The drainage holes, minimal padding and non-absorbent fabrics mean the boot dries really quickly.

TECHNOLOGIES

GORE-TEX FOOTWEAR. COMFORT AND PROTECTION.

GORE-TEX Footwear provides durable waterproofness and high breathability. This product comfort keeps wearers fully concentrated on their job which increases situational awareness.

GORE-TEX Extended Comfort Footwear is non insulated for high heat loss. It is ideal for warm weather and combined outdoor/indoor activities.

Benefits:

- Durably waterproof: dry feet
- Highly breathable: sweat out fast
- Non insulated: high heat loss
- Extremely abrasion resistant lining: exceptionally durable
- Quick re-dry: fast re-use
- Protection against exposure to sewage and commonly occurring chemicals*

*in accordance with ISO 13994/ASTM F 903 , method C1; commonly occurring chemicals include AFF Fire-fighting foam (3%), sulphuric acid H₂SO₄ (37%) diesel and caustic soda NaOH (30%)

GRIP TO PLAY IN ALL CONDITIONS

Contagrip® is more than a sole. It's a system of rubber compound and lug geometry, expertly engineered to optimize grip for each sport, terrain, and weather condition. Wet, dry, loose, hard, or muddy, Contagrip® performs better so athletes can play with confidence.

GRIP SYSTEM		COMPOUND		
<p>Every Contagrip® sole is a unique blend of rubber compound and lug geometry, targeted to provide the right mix of durability, adhesion, friction, and traction for different applications. Each has 3 families of compound and geometry.</p>		<p>DURABILITY FIRST Tough, long-lasting, ideal for rough surfaces or extra long wear</p>	<p>ADHESION FIRST Softer compound provides stickier feel on wet or smooth surfaces like rocks, roots, asphalt, etc.</p>	<p>WINTER SPECIFIC Stays soft in cold temperatures.</p>
GEOMETRY	<p>FRICITION FIRST More contact with the ground for confidence on flat surfaces, wet or dry</p>	<p>CONTAGRIP^{FD} URBAN JUNGLE ULTRA SZ URBAN JUNGLE ULTRA</p>		<p>CONTAGRIP^W TOUNDRA FORCES CSWP</p>
	<p>MIXED A balance of surface area and multi-directional lugs to provide friction and penetration</p>	<p>CONTAGRIP^{MD} QUEST 4D FORCES 2 (+ EN VERSIONS) GUARDIAN X ALP GTX FORCES</p>	<p>CONTAGRIP^{MA} XA FORCES GTX XA MID FORCES (+ EN VERSIONS) XA FORCES 8" GTX EN XA FORCES JUNGLE</p>	
	<p>TRACTION FIRST Deep lugs with large drainage channels to penetrate soft terrain and mud</p>		<p>CONTAGRIP^{TA} SPEED ASSAULT SPEEDCROSS 4 FORCES WIDE</p>	

Each shoe undergoes intense lab and field testing, against the reference products in the market.

**EXTERNAL LAB
LYON**

Grip on flat and heel position.
Between 20°C and 4°C.

**INTERNAL FOOTWEAR LAB
ANNECY**

Grip on marble.
Between 24°C and 4°C.

**EXTERNAL FIELD TESTS
ANNECY**

Grip on rocks, in mud
and on grass

CHASSIS TECHNOLOGIES

When you move train and deploy in uneven, varying terrain, having a platform that provides stability and cushioning is critical. Salomon has developed different chassis constructions developed for different terrain and uses, ensuring stability, cushioning, and comfort, while letting you move dynamically.

3D CHASSIS

Stability & propulsion for mountain terrain

AVAILABLE ON **XA FORCES 8" GTX EN, XA FORCES MID GTX EN, XA FORCES JUNGLE**

4D CHASSIS

Foot control & protection with active comfort

AVAILABLE ON **QUEST 4D GTX FORCES 2 EN, QUEST 4D FORCES 2 EN**

ADVANCED CHASSIS

Stability, foot control & Protection

advanced chassis

AVAILABLE ON **URBAN JUNGLE ULTRA SZ, URBAN JUNGLE ULTRA**

EDGING CHASSIS

Flex edging

3D Edging Chassis

AVAILABLE ON **X ALP GTX FORCES**

FIT TECHNOLOGIES

When military personnel train and deploy, their feet become flatter and wider the longer they stay out in the field. Combine that with the blisters, calluses and bunions that develop over many miles of training, and it's no surprise that proper fit is universally listed as the most important benefit of a tactical shoe.

QUICKLACE™

Easy-on, easy-off system for a secure and customized fit.

SENSIFIT™

Wraps the foot from the midsole to the lace system, providing a stable and precise fit.

AEROTHERM® INSULATION

Higher performance insulation with less weight and less bulk. Aerotherm® is a high performance insulation technology that resists compression and keeps feet warm up to -40°C / -40°F.

The lightweight and performance come from Nanotechnology that traps 90% air into the construction. It weighs less, is much thinner, and insulates better than other technologies. Aerotherm® is available in our most extreme winter footwear.

T° COMFORT

Temperature at which a **static person** will not have cold feet.

-30°C
-22°F

(eg: standing)

T° LIMIT

Temperature at which a **low-active person** will not have cold feet.

-40°C
-40°F

(eg: walking)

T° EXTREME

Temperature at which an **active person** will not have cold feet.

-78°C
-109°C

(eg: running)

TECHNICAL GLOSSARY

SOLE

	Every Contagrip® sole is a unique blend of rubber compound and lug geometry, targeted to provide the right mix of durability, adhesion, friction, and traction for different applications.
	A high performance EVA foam that provides shock attenuation
	Long lasting cushion and rebound

CHASSIS

	A stable chassis construction that harnesses two different midsole components to provide maximum foot control and active comfort
	A low-profile Advanced Chassis, placed between the outsole and midsole, maximizes security, motion control, energy management and push-through protection for a precise, stable and responsive ride.
	A lightweight Advanced Chassis, placed between the outsole and midsole, maximized motion control, energy management and push-through protection for an efficient, stable and responsive ride
	A Carbon version of the 3D chassis, delivering more edging precision and stability, while weighing less.

UPPER

	SensiFit cradles the foot from the midsole to the lacing system, providing a secure, snug and virtually customized fit all around the foot
	Leather
	Fabrics are tested against quality standards that are based on scientifically determined metrics that characterize both shaping performance and comfort.

WEATHER PROTECTION

	In rain, snow or ice - GORE-TEX® Insulated Comfort is highly insulating with inner lining that protects your feet from the cold and keeps them comfortably warm. The GORE-TEX® membrane delivers durable waterproofness. Your feet stay dryer and warmer.
	Waterproof weather protection for active hikers who need a flexible, lightweight waterproof bootie construction
	Higher performance insulation with less weight and less bulk. Aerotherm® is a high performance technology that resists compression and keeps feet warm up to -40°C / -40°F
