PRODUCTS WITH A MISSION®

ICONS

MADE IN USA: Compliant with the Buy American Act mandating "substantially all" materials, manufacturing & labor are of U.S. content

CE: Meets the requirements of the European Medical Device Directive and appropriate Quality System standards

LATEX FREE: Product is considered latex free and therefore safe for latex sensitive individuals

STERILE: Product is sterile - sterility guaranteed unless packaging is opened or damaged

RED TIP TECHNOLOGY®: Specifically branded with NAR's signature Red Tip Technology® packaging. Product packaging has been engineered for less-than-optimal, often hostile conditions that exist when our equipment is needed the most

NEW PRODUCTS: Marks the newest products throughout the catalog, making them easily recognizable as our newest innovations

Table of Contents

volume 18 • issue 1

M.A.R.C.H. Products

Products designed to address Massive Hemorrhage, Airway Management, Respiratory Support, Circulation/Vascular Access and Hypothermia Prevention

4

Combat Casualty Response Kits • CCRK®

Kits designed to meet the needs/challenges of our customers and to address the leading causes of potentially preventable death

22

DoD Bleeding Control Response Kits • D-BCRK

Individual kits, packs and stations designed to equip bystanders and first responders with the essential medical gear needed to help save lives

48

TAC-EVAC

The most effective and highest quality evacuation platforms and accessories for use in the tactical environment

52

Medical/Surgical Products

Medical and surgical equipment for use in austere environments, during prolonged field care situations and in forward operating field hospitals

60

Rescue Equipment

Includes an array of rescue products ranging from lightweight, versatile Pegasus® Ropes to tactical lights and accessories

74

Treatment Support

From personal protection products to splinting and immobilization products to help from the point of injury throughout the entire continuum of care

86

Training Products & Services

NAR Training Course Overview • Products designed to train users on TCCC protocols to reduce preventable death at the point of wounding

97

Product Index

Product offerings indexed by name, NSN number, and Item number for quick reference and information

JETT® Junctional Emergency Treatment Tool

- Immediately treat high extremity wounds in the thigh/groin region at or near the point of injury
- Superior performance during patient transport - not affected by changing atmospheric pressure and temperature like a pneumatic device
- Simultaneous occlusion of blood flow to both lower limbs that will not impede respiration
- Dual compression pad assemblies for rapid bilateral and/or unilateral application based on the injury
- Mesh sleeves help pre-position the pads
- Ideal for the prehospital environment
- Fits waists up to 50 inches

Also available for separate purchase:

JETT Pack

#80-0356 Coyote

#80-0355 Black

Nylon pouch designed to carry the JETT® on the outside of an aid bag

QUANTUM™ Blood & Fluid Warming System

- **Lightweight** The Quantum™ has the lightest operational weight of any portable blood & fluid warming system (Total Operational Weight: 22 oz)
- **Powerful** Warms two units of 39°F refrigerated whole blood at 100mL/min+ on a single charge
- **Compact** Fewest components to carry (three)
- **Fast** Warm-up time of only 24 seconds
- **Intuitive** The thermal transfusion/infusion set looks, handles, and sets up/primes like any conventional IV set
- **Safe** Tested safe for blood, blood products and IV solutions
- **Effective** The system is plug-and-play for ease of setup under stressful conditions such as tactical field care (only two connection points, with no plug orientation or set-up order requirements – system status constantly visible at a glance)
- **Complete** Does not require additional standard transfusion or infusion set – all other warmers do
- **Tactical** Only system FDA cleared allowing easy disable of audible alerts to protect operators in combat

Quantum Charger

Quantum Battery

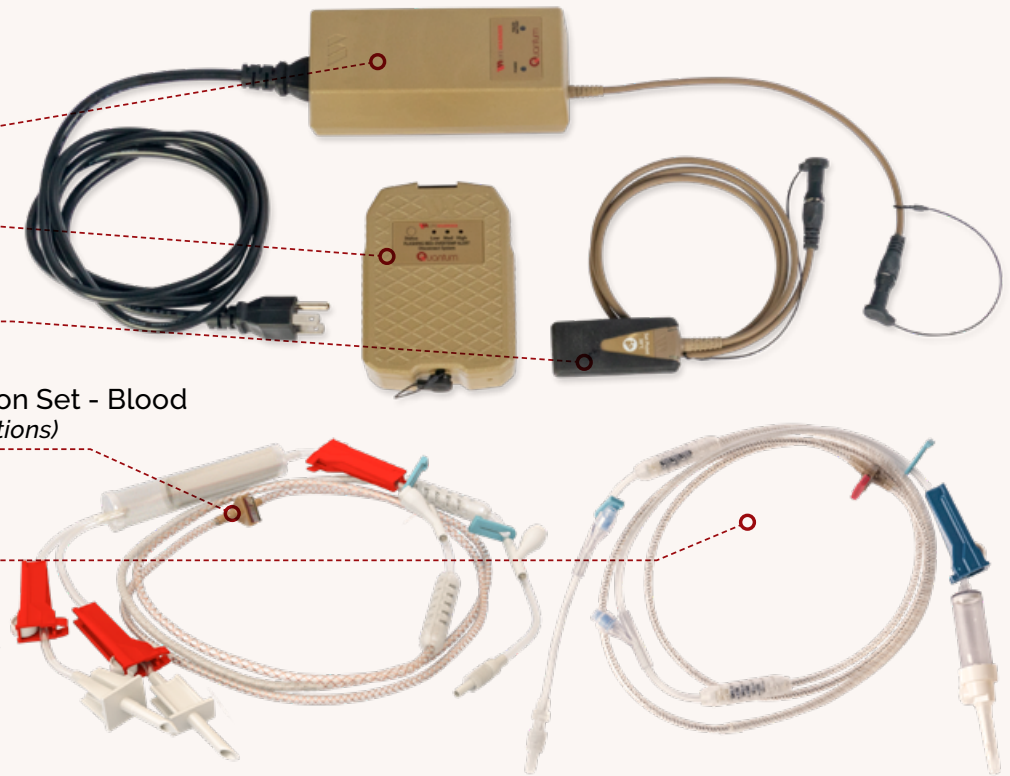

Quantum Controller

TTS-B Thermal Transfusion Set - Blood (Blood, blood products & IV solutions)

TIS Thermal Infusion Set (IV solutions)

PRODUCT WEIGHTS

Total Operational Weight: 22 oz
(Quantum™ Controller, Battery & TTS-B)
Battery: 16 oz
Controller: 3 oz
Thermal Transfusion Set: 2.7 oz
Thermal Infusion Set: 2.3 oz
Charger: 22 oz

OPERATING PARAMETERS

IV FLUIDS

- Input Temp: 68°F
- Output Temp: 100.4°F (38°± 2°C)
- Flow-Rate: 2 - 200mL/min (+)
- Warm-up Time: 24 seconds
- Warming Capacity with a Single Battery: 1700 mL

BLOOD or BLOOD PRODUCTS

- Input Temp: 39°F
- Output Temp: 100.4°F (38°± 2°C)
- Flow-Rate: 2 - 100mL/min (+)
- Warm-up Time: 24 seconds
- Warming Capacity with a Single Battery: 2 units (+)

*NOTE:
Complete System includes
1 x Controller
1 x Battery
1 x Charger
2 x TTS-B

Experience the **Quantum** **DIFFERENCE** The CAPACITY vs. CAPABILITY solution...

**Blood & Fluid
Warming System**

Quantum[™]
LIFEWARMER[™]

Close the **Fluid Resuscitation Capability Gap** that requires a **Normothermic Whole Blood** delivery system for far forward, near point-of-injury use

FAST | EFFECTIVE | SAFE | INTUITIVE | LIGHTWEIGHT | POWERFUL

REQUIREMENT:

- ▶ Delivery of 2 units of 39°F (4°C) Whole Blood at 100ml/min with an output temperature of 100.4°F (38°± 2°C) on a single battery charge
- ▶ Warm-up time - 24 seconds ▶ Lightweight & Portable - 22 oz total

We aren't playing the game. We're changing it.

FBTK Field Blood Transfusion Kits

- Comprehensive kit that provides all the needed supplies to allow the user to rapidly perform a field blood transfusion
- Equipped to allow for verifying the blood types of the donor and recipient and collecting blood samples from the donor for additional testing

ORDERING INFORMATION

OPTIONS	ITEM #
FBTK Basic	83-0022
Blood Surveillance	83-0025
FBTK Complete*	83-0000

FBTK Basic:

- Donor Module:**
- 5 x Alcohol Prep Pad
 - 2 x 2-pack Gauze Pad - 4 in. x 4 in.
 - 1 x IV Constricting Band - 1 in. x 18 in.
 - 1 x Clear Adhesive Dressing - 4 in. x 4.75 in.
 - 1 x Blood Bag Label

- Recipient Module:**
- 5 x Alcohol Prep Pad
 - 1 x IV Catheter - 18 ga x 1.25 in.
 - 2 x 2-pack Gauze Pad - 4 in. x 4 in.
 - 1 x IV Constricting Band - 1 in. x 18 in.
 - 1 x Clear Adhesive Dressing - 4 in. x 4.75 in.
 - 1 x IV Catheter - 16 ga x 1.25 in.

- Additional Supplies:**
- 1 x roll 1 in. Surgical Tape
 - 2 x pair Black Nitrile Gloves, Large
 - 1 x Black Permanent Marker
 - 1 x Kelly Curved Hemostat - 5.5 in.
 - 1 x Single Blood Bag (450ml)
 - 1 x 550 Cord - 9.5 in.
 - 1 x Beaded Security Tie - 11 in.
 - 1 x IV Set Y-Type with Filter 170-260 UM
 - 1 x Questionnaire Card - DD572 Modified

FBTK Blood Surveillance Module:

- Donor Module:**
- 1 x IV Hypodermic Needle - 18 ga x 1.5 in.
 - 1 x IV Syringe, 10cc
 - 1 x Eldon Card
 - 1 x Interlink Injection Site Needle
 - 1 x Blood Transfer Device
 - 2 x Vacutainer, Gold Top (5ml)
 - 1 x Vacutainer, Purple Top (5ml)
 - 2 x Vacutainer, Pearl Top (5ml)

- Recipient Module:**
- 1 x 3 Way Stopcock
 - 1 x Eldon Card
 - 1 x Interlink Injection Site Needle

*FBTK Complete:

Contains all components of **FBTK Basic** & **Blood Surveillance Module**

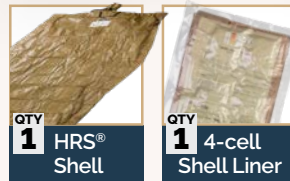

HYPOTHERMIA Prevention & Management

HPMK[®] Hypothermia Prevention & Management Kit

- Includes reinforced Heat Reflective Shell (HRS™) of 4-ply, composite fabric with a protected non-conductive reflective layer
- Built-in hood, integrated fluid absorption pad & top-to-bottom taper providing excellent thermal insulation
- Continuous 1.5 in. Velcro® closures provide rapid 360° access to the casualty with minimal exposure to the elements
- Self-heating, 4-cell liner (Ready-Heat™ Blanket) provides 10 hours of continuous dry heat up to 125°F (52°C)
- Vacuum-packaged for a low-cube footprint

INDEX

North American Rescue® is **THE market leader** for designing, producing, integrating and assembling tactical field medical sets and kits **supporting the services of the Department of Defense, federal agencies** as well as **state and local law enforcement**.

Over the past several years, our ability to provide rapid response products and services has aided in the delivery of critical battlefield medical care when and where it's needed most with an **end result of saving more lives**.

A comprehensive list of supply chain services affords a unique opportunity to North American Rescue's customers in the procurement, assembly, storage and management of their **complete medical and material logistics** requirements. NAR maintains a 75,000 square foot warehouse facility which consists of 50,000 square feet for receiving and distribution staging and an additional 14,000 square feet solely dedicated to the assembly room where sets, kits and **custom medical solutions are built to order**.

Highly qualified logistics and warehouse staff ensure that orders, inventory and distribution processes **maintain the superior quality standards** associated with the North American Rescue brand. Our integral partnership with the South Carolina Vocational Rehabilitation **NISH Partner** is a pillar in the successful execution of these processes. ■

MedicECG[®] from Resolute Medical

- Lightest and smallest ECG designed for use in the field - ruggedized, portable, and easy to use
- Automated interpretation of ECG rhythms to alert the user of patient risks
- Results can be transferred through field communication channels
- Useful for early diagnosis of abnormal heart conditions before sending personnel to the field
- Versatile, inexpensive, and highly portable solution for base hospital ECG testing
- Exceeds industry standards for ECG accuracy and quality
- Supplied in muted mil spec colors with crushproof, waterproof, and dustproof case for easy and reliable storage

For complete specifications and more info, please visit www.NARescue.com

PEGASUS ROPE®

WARHORSE™ SERIES

100% Innegra™ fiber braided core

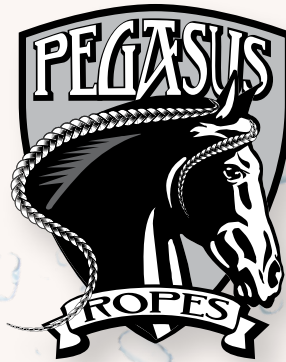

- High quality, multipurpose rope
- Static rope provides reliability, high performance and great handling
- Excellent knot-ability with high strength-to-weight ratio
- Low stretch/sheath slippage – wet, dry or in any other climatic condition
- Ultra-lightweight, strong Innegra™ core for reliable strength, durability & flotation
- Properties remain unchanged even when wet, dry or contaminated with chemicals
- Low dielectric and UV stable

SPECIFICATIONS

Diameter	9.1 mm	9.5 mm
Weight:	4.88 lb/100 ft	3.34 lb/100 ft
Tensile Strength:	5,670 lbf (22.7 kN)	5,100 lbf (22.7 kN)
Fibers (core/sheath):	Innegra™/Polyester	Innegra™/Polyester
Sheath Ratio:	63% Polyester	28% Polyester
Ratings:	NFPA 1983/2012 Throwline (Pending)	NFPA 1983/2012 Throwline (Pending)

OPERATIONAL TACTICAL

Tapping into the in-depth knowledge developed through a commitment to knowledge and real-world know-how, the instructors from NAR Training provide educational experiences that other training organizations can't compare to. Understanding the tactical environment brings a whole new dimension to medical training.

NAR Training delivers a broad range of curricula that will frequently include hands-on skills stations and scenarios designed to develop competence and confidence for handling injuries in the field. From Tactical Combat Casualty Care (TCCC) and TECC to Fed Med and SOF Med, course offerings cover the broad spectrum of considerations for urban, rural and other austere environments while delivering lifesaving measures.

MISSION SPECIFIC

Knowledge and information will only prepare you so much for the rigors of real-world stress experienced in combat. In order to be better prepared for the problem-solving challenges of your operational environment, NAR Training delivers customized training that captures the requirements for ensuring optimal outcomes for you and your entire team.

With a proud history of working with Tier One teams to help sharpen their skills and prepare them for the physical, mental, and emotional challenges that they will experience in the field, these courses cover the range of instructor-led classroom lecture all of the way to fully immersive scenario-driven experiential training events that empower students to develop superior skills and tactics. Contact our team today to discuss your specific needs and prepare for optimal outcomes.

NAR Simulation

TOMManikin, CASEVAC Simulators, Battlefield Effects brought to your location

TOMMANIKIN™ Series

State-of-the-art training simulators, the TOMManikin - Tactical Operation Medical Manikin provide the ability to enhance training in Tactical Combat Casualty Care (TCCC) from Point of Injury to transfer of higher care

- All-in-one, hyper-realistic trauma simulators enabling instructors to build multiple realistic traumatic casualty scenarios with reactive patients - ideal for use in classroom settings, trauma lanes and field training scenarios
- Multiple, interchangeable extremities present a variety of wounding patterns such as gunshot, blast and burns to provide full mission profiles in combat scenarios, disaster re-creations and mass casualty events (See website for additional extremity options not shown here)
- Constructed of silicone and welded steel
- Weighs more than 160 pounds with extremities that can withstand up to 6,000 pounds of pressure
- Rugged remote controlled simulators the ideal choice for confined space, building collapse, care under fire, and entrapment training scenarios
- Intervention capabilities on all manikins include tourniquet application, airway management (basic to advanced), needle decompression, chest tube, IV/IO, and wound packing

Every TOMManikin™ includes:

- Equipped with Advanced Remote Tablet and Software enabling wireless control of up to 12 TOMManikin units with capabilities of bleeding, breathing, multiple voice tracks, pulse rates, pulse pressure and realistic responses to responder interventions
- Presets, scenario builder software and exportable student evaluation checklists included
- Onboard power via a 12v / 5 amp & 10 amp standard rechargeable nickel metal hydride (NiMH) batteries with smart chargers included
- 1.2 gallon onboard blood reservoir facilitating massive bleeding from multiple locations
- 1 x 1400 Black Pelican Accessories Case
- 1 x T handle tool (for extremity changing) and various air & fluid replacement connectors
- 1 x TOMManikin Operator's Manual
- 1 x 1-year warranty document

BASIC TOMManikin™

Intervention capabilities:

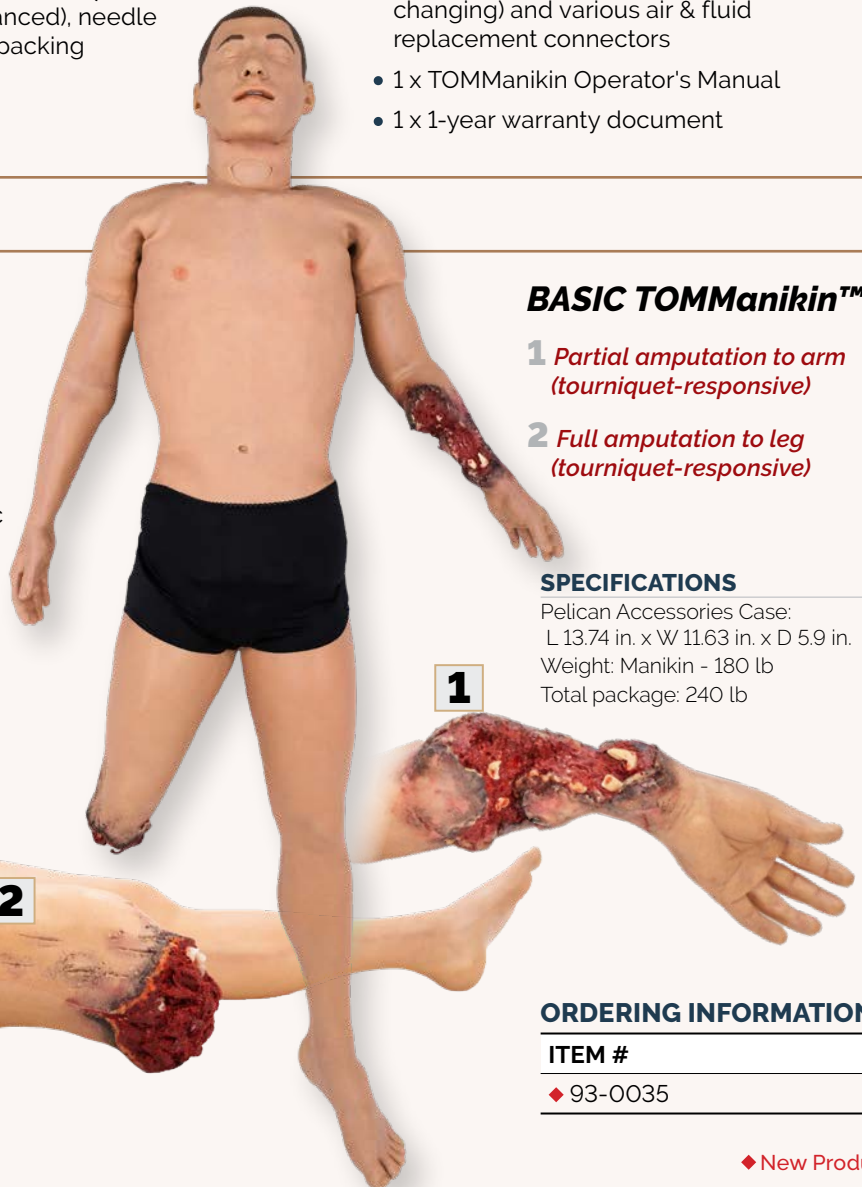

- Tourniquets (proximal, junctional, and abdominal tourniquets)
- Active bleeding controllable by direct pressure on pressure points
- Wound packing with realistic bleeding control
- Nasopharyngeal and oral airways, supraglottic airway insertion and endotracheal intubation
- Surgical airway with realistic bleeding and tissue dissection | 35 operative sites included
- Remote controlled breathing rates: Slow, Normal, and Fast
- Bilateral Needle Decompression at either 2nd/3rd intercostal (mid-clavicular), or 5th/6th intercostal (mid-axillary) locations
- Realistic chest seal application & adhesion
- Chest Tube capable (bilateral)
- Radial pulses in uninjured upper extremities & bilateral carotid pulses
- Variable pulse rate & pressure (Normal, bounding, thready)
- IO (sternal & humoral) and antecubital IV access on uninjured upper extremities

BASIC TOMManikin™:

- 1 Partial amputation to arm (tourniquet-responsive)
- 2 Full amputation to leg (tourniquet-responsive)

SPECIFICATIONS

Pelican Accessories Case:
 L 13.74 in. x W 11.63 in. x D 5.9 in.
