# Materials/Technology

Bianchi® offers a variety of materials to meet the needs of those who use our products. From AccuMold® ballistic weave to leather and leather/laminate combinations, Bianchi has a material that works for you. Our premium grade full grain leather and ballistic weave fabrics are long lasting, durable, and offer the professional look desired by law enforcement and sports enthusiasts alike.

**AccuMold®**

A state-of-the-art molded synthetic product of trilaminate construction - ballistic weave outer fabric, a firm, high-density closed-cell foam center; and a smooth Coptex™ lining. AccuMold® pouches are contour-molded to precisely fit the gear it was designed to carry.

**AccuMold™ Elite**

We've taken our patented AccuMold technology and dressed it up. The AccuMold® Elite™ line offers the same construction of AccuMold, but with a Duraskin™ outer material that looks amazingly like leather. You can't tell the difference until you pick it up and see that it's almost half the weight.

**PatrolTek™**

PatrolTek™ duty belts and accessories are made using our molded trilaminate technology but at a price to meet the demands of ever-tightening budgets. You don't have to give up function and wear to get duty gear at a great price.

Design, function, security, and comfort have always been at the forefront when developing new Bianchi products. Our research and development team continually focuses on new materials and new technologies to offer the best in the industry.

**ALLUSION™**

**ALLUSION™ SERIES**

The Bianchi® Allusion™ series brings you the best of leather and synthetic materials for superior performance and good looks. We start out with a thermoformed, synthetic shell precisely formed to the firearm. Then we wrap it with our premium grade, full grain, vegetable tanned cowhide and give it our finishing touches, including burnished edges and our leather dressing that gives the holster that distinctive leather look and smell. With the Allusion series, we are also able to add features not typically found with leather-only construction, such as our retention detent, smooth draw and re-holstering.

The Allusion series perfectly matches tradition and cutting edge technology, bringing leather holsters into the 21st century.

**BIANCHI GUNLEATHER®**

Many people love traditional leather. It wears beautifully, and nothing quite smells or feels the same. Bianchi leather is full-grain cowhide – the best available. We choose different weights based on the product requirements, handcrafting and molding it to perfection the old-fashioned way, by not cutting corners.

- We use full grain premium cowhide
- Sewing process uses a lock-stitch for quality and durability

Bianchi® offers a variety of materials to meet the needs of those who use our products. From AccuMold® ballistic weave to leather and leather/laminate combinations, Bianchi has a material that works for you. Our premium grade full grain leather and ballistic weave fabrics are long lasting, durable, and offer the professional look desired by law enforcement and sports enthusiasts alike.

# Duty Belts

- Equipment belts are constructed with either four-part or five-part laminate for long-lasting shape and exceptional durability. Four-part laminate features a firm polyethylene center strip sandwiched between a high-density, closed-cell foam, with a durable nylon lining, and either a weave or Duraskin™ exterior depending on the model
- ErgoTek belts uniquely designed to spread weight of loaded duty belt over entire waist
- CopLok polymer buckles are shatter-resistant with a 3-point release for extra security
